## **An enviable location**

For more than 250 years, the Jewellery Quarter has been famed worldwide as the UK's centre for jewellery and is home to over 500 jewellery businesses. This strong artisan heritage coupled with its status as a designated conservation area with over 200 listed buildings, underpins its current growth and success as a thriving and creative hub. It is an inspirational place, celebrated for its creativity and is described by English Heritage as 'a unique historic environment in England'.

Building on this heritage and the area's close proximity to central Birmingham, the quarter is home to a growing and thriving business community, attracting not only creative and artisan businesses, but also professional services like architects, accountants and solicitors. The residential population is also increasing and the area is now home to nearly 7,000 people. The Jewellery Quarter's unique and authentic character makes it a great place to live and work – and to enjoy its many coffee shops, restaurants, bars and cafés; as well as art galleries, museums and antique shops.

# Seven Capital

Established in 2007, Seven Capital is the pre-eminent residential property developer in Birmingham city centre.

We convert commercial spaces in key city centre locations and transform them into stunning residential apartments. We also build brand new apartment complexes in equally desirable locations. Understanding investors' needs, we offer a "hands-off" property investment service from purchase through to sale - including rental management. Helping investors to establish and expand their property portfolio in Birmingham, we sell luxury apartments off-plan, enabling our clients to buy premium real estate directly from the developer, at a fraction of the market value.

Developing buildings such as disused factories, offices and ex-commercial space not only improves the immediate environment, but also gives our residential space a unique character and a particular integrity that can only be achieved by using buildings with heritage.
